The Raleigh Elites want to control our party, and put their self-serving political interests **BEFORE** our interests.

That's the **WRONG WAY**.

As widely reported, the Raleigh Elite's attempt to hijack our Republican State Convention was divisive. And Republican leaders like Governor Jim Martin and U.S. Senator Elizabeth Dole agree their efforts to impose Draconian rules on fellow party members serves no one's best interests. But to the Raleigh Elite, it's either their way or the highway.

Richard Morgan Always On *Our* Side

As our conservative voice in Raleigh, Richard Morgan has proven time and time again, he's looking out for one interest – the interests of North Carolina families. To Richard, people always come first. And he has the record to prove it. He has the right skills and experience needed to put the political game-playing aside, and get the results we expect.

“As your representative, I'll always put the interests of Moore County families before the interests of the political game-playing extremists. With your support, I'll continue working hard to advance our common sense conservative agenda, build a stronger and more inclusive party, and help make Moore County an even better place to live and raise a family.”

July 20th, Vote to **STOP** the Raleigh Elite.
